

Comprehensive RBAC & User Privileges Test Plan

This master specification contains end-to-end test suites across all 6 pre-seeded role personas, corporate scoping rules, Pakistani statutory tax/gratuity computations, and the new **Two-Tier Persistent Navigation Bar**.

Local Test Environment:

- **Primary Web App URL:** `http://localhost:3000`
- **Alternative CI Testing Port:** `http://127.0.0.1:8099`
- **Repository Origin:** `https://github.com/Mghullam65/MY-HRM.git`

2. Navigation Architecture (Two-Tier Persistent Bar)

The system utilizes a **Two-Tier Persistent Bar Layout** with **Zero Dropdowns**:

- **Row 1 (Top Bar):** System Brand Logo, Global Spotlight Command Palette (`Ctrl+K`), Persona Quick Switcher, Dark/Light Theme toggle, Notifications, Profile menu.
- **Row 2 (Main Pillars):** `DASHBOARD` | `PEOPLE & TALENT` | `TIME & ATTENDANCE` | `FINANCE & PAYROLL` | `OPERATIONS & ADMIN` .

- **Row 3 (Persistent Sub-Navigation Bar):** Clicking any pillar renders its sub-modules side-by-side as flat clickable tabs directly underneath:
 - **PEOPLE & TALENT:** Employees & e-DMS | Recruitment (ATS) | Performance & OKRs | My Profile & Onboarding
 - **TIME & ATTENDANCE:** Attendance & Shifts | Leaves & Absence | Assets & Inventory
 - **FINANCE & PAYROLL:** Payroll & Taxes | Expense Claims | Final Settlement
 - **OPERATIONS & ADMIN:** Helpdesk & Grievance | Reports & Analytics | Events & Notices | Administration | Multi-Company Holdings
- Dashboard view cleanly collapses the sub-navigation bar to optimize screen space.
